DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-6, 8-24 and 26-30 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-6, 8-24 and 26-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Ginter et al (U.S. PG Pub No. 2005/0246541 A1).
4. As per claims 1-6, 8-24 and 26-30, Ginter et al teach a method of transferring funds (money, cash) using a credit or debit card or bank account between a sender and a recipient, comprising providing a sender account controlled by the sender, said sender account having a fund the fund being available money or cash, wherein said available money or cash is not from a sales transaction where a seller receives payment from a buyer providing an escrow agent account controlled by an escrow agent, wherein said escrow agent is a separate entity and not the recipient; electronically authorizing via computer modem a transfer of the fund into the escrow agent account from the sender account for temporarily holding the fund in the escrow account; automatically transferring the fund from the sender account to the escrow agent account for

Art Unit: 3621

temporarily holding the fund in the escrow account automatically transferring the fund from the escrow agent account to a remote distribution site (ATM, POS) that is remotely located from the escrow agent account; and virtually simultaneously disbursing the fund (via a magnetic debit card) to the recipient at the remote distribution site to complete the transfer without the use of a code provided by the sender to the recipient, wherein the transfer is not in response to a pre-existing transactional relationship between the sender and the recipient and the disbursement is authorized without a pre-established relationship between the remote distribution site and the recipient (*see paragraphs 0716, 0722, 0724, 0725*).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. (*see form 892*).

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3621

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
